## ELSON TAKES UP RAILROAD STRIKE

and Railroad Men Don't  
Reach Agreement and Wilson  
Will Meet With Them

## CABINET IS DISMISSED

Representatives of Railroad  
Will Talk With President in  
The Morning

(By United Press.)

Washington, Feb. 12.—Disposi-  
tion of the wage demands of more  
than 2,000,000 railroad employees to-  
day was in the hands of President  
Wilson. Decision to lay the matter  
over to the President was made late  
today after Director-General  
Hines and representatives of the  
railroad men had failed to reach an  
agreement.

Statements setting forth the views  
of both sides in the controversy—  
giving the reasons why the union  
demanded an immediate increase  
in wages and the other explaining  
Director-General Hines could  
agree to such increase on the  
condition of the turning back of the rail-  
road to private ownership—were in  
the hands of preparation today for  
presentation to Mr. Wilson.

Washington, Feb. 12.—President  
Wilson will meet a delegation of  
railroad union officials at  
tomorrow morning, it was an-  
nounced at the White House today.  
It is expected that the president  
will give to the railroad  
men his answer to their de-  
mand for immediate wage increases  
they have been pressing in  
negotiations with Rail Director  
Hines since February 3.

Mr. Jewel, head of the American  
Association of Labor railway depart-  
ment today was named chairman of  
the committee of three to meet  
with President Wilson. The other mem-  
bers are J. Manion, of the railway  
engineers and Timothy Shea,  
of the firemen and engineers.  
Before meeting the railroad men  
president will study the whole  
controversy which was post-  
poned last summer when he re-  
fused the men to give the govern-  
ment a chance to show results.  
The report covering the  
controversy will be delivered  
today, it was announced at  
the White House after a confer-  
ence between Hines and Tamm, at-  
tending to the president.

Following the announcement that  
the president would meet the rail-  
road men personally, Secretary Lan-  
dau admitted that he had called off  
the "hounds" until further  
notice. It was recalled that the  
president handled the coal strike and  
the falling off of the bi-weekly  
pay is regarded as showing  
the president has decided to  
take the railway controversy

## ROTARIANS REGISTER

Attention Gets a Big Start at Fort  
Wayne Today

(By United Press.)

Fort Wayne, Ind., Feb. 12.—With  
members registered last night  
after delegations arriving today  
annual convention of the Elev-  
ator district of the Indiana Rotary  
was in full swing today. Al-  
though Walter Pittsford, of Indiana,  
is unopposed for the next  
year, his friends are putting on  
an enormous campaign in his behalf.  
Members of the Indiana club will  
be a mark behind John Dyer, of  
Indiana, for international vice-  
president at the national conven-  
tion at Atlanta City in June.

## NEW SECTY OF INTERIOR

Washington, Feb. 12.—John Bar-  
Payne today was named Secre-  
tary of Interior. Payne at present  
man of the shipping board  
succeeded Franklin K. Lane, who  
left the office March 1. The nom-  
ination of Payne will be sent to the  
Senate today by President Wilson,  
as announced at the White  
House.

## INSTITUTE IS POSTPONED

Institute in Fayette County Calls  
Off Joint Meeting

The joint institute of the two  
counties, Union of Rush and Fair-  
view of Fayette, which was to have  
been held today at the Fairview  
school building, was postponed  
by Fayette county officials on ac-  
count of the increasing number of  
influenza cases in Fayette county.  
The meeting of the two farmer's in-  
stitutes was looked forward as a big  
meeting by the farmers, and as the  
influenza cases have been increasing  
daily in Fayette county, it was  
deemed wise that the gathering  
should not be held.

C. W. Saxon, president of the  
joint institute, was among the Fay-  
ette county patients, and could not  
have been present had the institute  
been held.

## NICHOLAS BROWN EXPIRED TODAY

Prominent Farmer of Posey Town-  
ship Dies After Illness With  
Asthma and Complications

WAS BORN IN GERMANY

Came Here at Age of 11 and Was  
a Resident of Rush County  
For Nearly 70 Years

Nicholas Brown, an industrious  
and successful farmer of Posey town-  
ship, died this morning at the  
home of his son, Jerry Brown in  
Arlington. The deceased had been  
in poor health for some time, and  
had been seriously ill for the last  
two weeks.

Mr. Brown was born in Germany  
in 1840 and would have been 80  
years old next December had he  
lived. After coming to this country  
with his parents at the age of eleven  
they settled in Posey township and  
he made Rush county his home for  
almost the last 70 years.

The deceased made his home for  
several years after coming here with  
Mr. and Mrs. Jeremiah Beckner, and  
he later purchased a farm with his  
earnings, on which he made a suc-  
cess. In recent years he was a suf-  
ferer with asthma and other compli-  
cations arose which caused his de-  
mise.

Mr. Brown was a member of the  
Arlington Christian church, uniting  
with that church when a young  
man. He was married twice, both  
of his wives preceding him in death.

The deceased is survived by sev-  
en children, three daughters and  
four sons, the daughters being Mrs.  
Ella Kiser of Carthage, Mary of  
Indianapolis and Nora of Wash-  
ington, D. C., and the following  
sons, Jerry of Arlington, Henry of  
Noblesville, Charles of Indianapolis  
and James of Spokane, Wash. The  
latter will be unable to attend the  
funeral.

The funeral arrangements have  
not been completed as word was to  
be received from the daughter living  
in Washington, D. C., who is prob-  
ably enroute to Arlington and will  
arrive late tomorrow. In all proba-  
bility the funeral will be held Sat-  
urday, and the exact hour will be  
announced later.

## EXPECTED HERE TOMORROW

Plans are progressing satisfactori-  
ly for the opening of the evangeli-  
stic campaign at the First Presby-  
terian church next Sabbath. Word  
has been received from Mr. and  
Mrs. George that they expect to ar-  
rive in the city tomorrow, and ev-  
ery one who has been asked to sing  
in the chorus is urged to be present  
promptly at seven o'clock tomor-  
row evening for chorus rehearsal un-  
der their leadership. Let members  
remember the mid-week service this  
evening and be present.

## RECOVERS FROM OPERATION

Lowell Hutchinson, son of Mr.  
and Mrs. Elmer Hutchinson of Ar-  
lington, who recently underwent an  
operation at the Dr. Sexton hospital  
here for appendicitis, was reported  
today as getting along nicely.

## DAYLIGHT SAVING FAVORED BY MANY

Quite a Few Rushville People Would  
Like to See Working Day Ad-  
vanced This Summer

## DEAD ISSUE AT WASHINGTON

City People Like The Change But  
Country People Object—Some  
Towns Take Action

Although daylight saving is a  
dead issue so far as the federal gov-  
ernment is concerned, quite a few  
Rushville people would like to see  
the plan revived locally during the  
summer months. The agitation here  
in this respect is not as general,  
thus far, as it is in a number of  
other cities where agreements have  
been reached to begin work in fac-  
tories one hour before the custo-  
mary time. It is explained that  
whatever action is taken in this re-  
gard must be purely local as con-  
gress has decided that the clocks  
of the country will not be changed  
this year.

The sentiment in favor of the ad-  
vanced working hour appears to be  
strongest among men employed in  
factories and stores. They point out  
that it is advantageous to begin  
work as soon as possible in the  
morning as they have more time to  
give to their gardens and other  
home work in the evenings. During  
the summer months, when the days  
are longer, considerable work can  
be done between 6 o'clock and sun-  
down.

The farmers in the county are op-  
posed to the plan as a general pro-  
position inasmuch as their working  
hours during the summer time are  
from sun up to sun down. They in-  
sist that the daylight saving plan  
was an inconvenience to them in  
many respects and general satis-  
faction was expressed among farm-  
ers when congress finally decided to  
abandon the daylight saving plan as  
a permanent measure.

People who are unemployed at a  
specific number of hours in indus-  
trial centers, on the other hand,  
feel kindly towards the plan. It was  
originally instituted at the sugges-  
tion of the department of agricul-  
ture as a means of encouraging  
home gardening. The plan was con-  
tinued for two years during the war  
and undoubtedly resulted in a large  
production of food on ground  
which had not been under cultiva-  
tion in former years. During the war  
so many people became interested in  
home gardening that they desire to  
continue it now and going out that  
the extra hour in the evening in-  
sures sufficient time for this work.

An objection to local change of  
working schedules is that the city  
and rural districts would be thrown  
"out of gear". If the stores, for in-  
stance, should agree to open at 7  
o'clock instead of 8 o'clock each  
morning and close at 4:30 instead of  
5 o'clock.

## LUMBER COMPANY WILL BUILD PLANING MILL

Capitol Lumber Company Buys Site  
and Will Erect a Mill to Take  
Care of Their Work

## OTHER MILLS OVERCROWDED

Due to the overcrowded condition  
of all planing mills in the country  
the Capitol Lumber Company of this  
city has found it necessary to build  
a mill of their own to meet the rap-  
idly growing requirements of their  
trade in this country.

Ground has been purchased from  
the Sexton heirs at the corner of  
West Market and Oliver streets. It  
is the expectation of Curt S. Hes-  
ter, manager of the company, to  
have the mill up and in operation  
to a good extent within two months.

Work will be pushed ahead rapid-  
ly and machinery installed as fast  
as it arrives. Some machines are  
on the way and will reach here be-  
fore the mill is ready. The company  
expects to increase the capacity of  
the mill as fast as they find it nec-  
essary, according to Mr. Hester.

## URGES SOWING OF MORE CLOVER SEED

Farmers Refrain From Planting  
Clover in Their Rotation Because  
of its High Cost

## REAL VALUE IS POINTED OUT.

County Agent M. F. Detrick Ex-  
plains How Clover Will Fertilize  
The Soil And Pay For Itself

About 15 per cent of the cultivat-  
ed area of Rush County is in clo-  
ver. If a corn, wheat, clover rota-  
tion were followed 33 1/3 per cent  
of the area would be in clover. "The  
larger immediate return from corn  
prompts many farmers to leave  
clover out of the rotation," said M.  
F. Detrick, county agent today, and  
continuing he said, "Some low black  
soils may continue to respond  
without clover but the majority of  
soils will give a much larger net re-  
turn over a period of years if clo-  
ver is kept in the rotation".

Clover roots go down deep into  
the soils and provide drainage. They  
bring plant food from the lower soil  
and in this way improve the supply  
of plant food in reach of the shal-  
low rooted plants. They also fur-  
nish a home for a class of bacteria  
that gathers nitrogen from the air  
and converts it into protein com-  
pound, where it is available as feed  
or fertilizer.

A ton of clover hay contains 40  
pounds of nitrogen. Two tons which  
is a reasonable crop of clover hay  
would contain 80 pounds of nitro-  
gen. The roots will contain about  
one-third of the nitrogen of the  
plant or about enough to compen-  
sate for the nitrogen taken from the  
soil in growing the crop. It is safe  
to say then that a two ton clover  
crop, if plowed under, will increase  
the nitrogen supply by about 80  
pounds, or if the hay is fed and the  
manure returned to the soil, 60 of  
the 80 pounds may be returned to  
the soil.

Nitrogen at the present time is  
costing from 35 cents to \$1.10 per  
pound in mixed fertilizers, figuring  
them at list prices. Then if we fig-  
ure nitrogen at 50 cents per pound,  
the cost in a 2-12 good at list price,  
we find \$40.00 worth in each two  
ton of clover or \$30.00 worth in the  
manure made from two tons of clo-  
ver. In addition to this plant food  
gathered from the air the clover  
crop has improved drainage, me-  
chanical condition, and the avail-  
able potash of the soil.

Clover is really a wonderful crop  
and except in rare cases the high  
price of clover seed should not  
cause any one to leave clover out of  
the rotation. The kind of clover and  
the method of seeding might be mod-  
ified however. Alsike clover may be

## AMY O'CONNOR GETS \$10,000 JUDGMENT

"Irish Rose" Gets Judgment From  
Evansville Millionaire—Asked  
For \$500,000

## FOR A BREACH OF PROMISE

(By United Press.)

Indianapolis, Ind., Feb. 12.—Amy  
O'Connor "The Irish Rose" was given  
a \$10,000 by a jury in the federal  
court today in her \$500,000 heart  
balm suit against Allen Gray, mil-  
lionaire banker of Evansville, Ind.  
The jury deliberated from 3:30 yes-  
terday afternoon until 9:25 last  
night, when it returned a sealed  
verdict to Judge Anderson. The  
judge read the verdict when court  
opened today.

This brings to a close a sensa-  
tional romance in which "the Irish  
Rose" claimed that Gray wrecked  
her life after promising to marry  
her and ruined her health by illegal  
operations. The millionaire denied  
a promise to marry the young wom-  
an whom he met in London in 1911.

He denied also that he brought  
her to this country to become his  
wife, as Miss O'Connor alleged. Miss  
O'Connor is 30 years of age and  
Gray will be 63 in May.

## TO ORGANIZE TITHING BAND

M. E. Church to Hold Mid Week  
Prayer Service This Evening

A tithing band will be organized  
among the members and friends of  
the St. Paul's Methodist church at  
the mid week service to be held in  
the parlors of the church this eve-  
ning at 7:30 o'clock. A committee  
appointed some time ago to formu-  
late ways and means for conducting  
the tithing plan in the church will  
report at this evening's meeting. All  
titheers of the church and friends of  
the stewardship movement are es-  
pecially urged to attend. All others  
are cordially invited to attend. The  
meeting will be in charge of the  
pastor, Rev. C. S. Black.  
The choir for the church will meet  
for a rehearsal immediately after the  
meeting at 8:30 o'clock.

## LAZY HUSBANDS MUST FIND WORK

Police Here Will Enforce Two Laws  
in Order to Free the City of  
Worthless People

## "TOWN LOAFERS" MUST GO.

Vagrancy Law and Lazy Husband  
Act Will be Rigidly Put into Ef-  
fect, Chief Wilfong Says

The police have been instructed  
and Chief of Police Wilfong has is-  
sued the orders that two Indiana  
laws are going to be rigidly en-  
forced in Rushville from now on.  
The two laws are the lazy husband  
and the vagrancy law, which the of-  
ficers say are being violated here  
extensively.

The lazy husband act has been  
enforced here several times before.  
The act as defined by the legislature  
sets forth that the purpose of it is  
to prevent and punish non-support  
of a wife or family, when the hus-  
band is capable of earning a living.

The penalty may range from \$1.00  
to \$500 to which may be added im-  
prisonment in the county jail or  
workhouse for a period not exceed-  
ing six months.

In case a jail sentence is given or  
failure to pay the fine, the judge or  
mayor, may direct that the person  
convicted shall be compelled to  
work upon the public roads and  
streets or in any kind of work that  
the county is undertaking. The com-  
missioners or by the persons re-  
sponsible for the employment, then  
issue compensation to the wife or  
children, while the husband is en-  
gaged in doing the work for the city  
or county.

This money for labor performed  
by the husband is to be paid to the  
wife or family, at the end of each  
month.

The vagrancy law which was en-  
acted in 1905 not only includes the  
"town loafers" but also the tramps  
and others who resort to begging  
methods, provided that the person so  
doing is an able bodied man.

The last few days the police have  
taken several of the "town loafers"  
before Mayor Irvin, and he has ex-  
plained to them that they must get  
to work, or else go to work by  
force.

The Chief of Police stated today  
that he had a list of many young  
men who are not attending school  
and who were spending their time in  
loafing places and on the streets.  
These young men will be given a  
few days in which to find work, or  
else the city and county will see to  
it that they go to jail or find work.

It has been pointed out that labor  
now is in big demand and these  
young men, as well as lazy hus-  
bands, can easily find employment  
either in local factories or else as  
farm hands.

The police made the order very  
emphatic and said that arrests will  
be made very soon, and wished first  
that the offenders be given notice  
through the press.

## NO OBSERVANCE HERE TODAY

Lincoln's birthday anniversary  
was celebrated here today with fit-  
ting exercises in the city schools,  
the banks being the only business  
houses to observe the day, remain-  
ing closed all day.

## HOME BREWERS ARE SUBJECT TO FINE

Revenue Agents Expected Here at  
Any Time to Investigate Local  
Prohibition Conditions

## "HOME WADES" MUST GO.

Only Those Who Had Stock Before  
January 17 are Exempt—Big  
Penalties are Provided

"Home brew" is under the ban of  
the federal prohibition law, accord-  
ing to revenue agents who are trav-  
eling about the state to see that the  
terms of the statute are understood  
and enforced. They are visiting ev-  
ery county in Indiana and may be  
expected here at any time.

The manufacture of "home brew"  
apparently is a matter that is sub-  
ject to considerable misunderstanding.  
The law states that it is illegal  
although many cling to the belief  
that they may make all of the "li-  
quor" they wish so long as they do  
not sell it. This means that a man  
found with home brew in his pos-  
session is liable to fine and impris-  
onment as provided by the federal  
statute.

The penalty for the manufacture  
of intoxicating liquors of any kind  
is fixed by law as a maximum fine of  
\$1,000 or six months imprisonment  
for the first offense. For the second  
offense the fine ranges from \$2 00 to  
\$2,000 or imprisonment from one  
month to five years.

One of the matters which the re-  
venue agents have to explain every-  
where they go is that of private  
stocks. Persons having private  
stocks in their possession which  
they obtained legally, and before  
January 17, cannot be molested, it  
was said. However, should that per-  
son wish to move from one house to  
another, he would not be allowed to  
move the liquor until a special per-  
mit had been secured from Judge Or-  
bison, state prohibition agent, lo-  
cated at Indianapolis.

Stressing particularly the desire  
on the part of the federal govern-  
ment authorities to co-operate with  
all good citizens in the arrest of vi-  
olators of the provisions of the act  
to enforce the eighteenth amend-  
ment, federal agents state that per-  
sons wishing to report such viola-  
tions should write to Judge Orbison  
and an immediate investigation of  
the matter would be made.

The matter of the sale of patent  
medicines and other liquids contain-  
ing more than one-half of one per-  
cent alcohol also causes misunder-  
standing. Druggists selling Jama-  
ica ginger should not sell more than 2  
ounces to any one person. Liquids  
such as bay rum and lemon extract  
might be sold with slightly more  
freedom, provided the druggist was  
acquainted with the purchaser and  
was sure the liquid would not be  
used for the wrong purpose.

In connection with this fact it is  
stated that the sale of patent medi-  
cines and other liquids, of like nature  
must receive the sanction of the fed-  
eral government through Judge Or-  
bison, who would issue permits for  
the purchase and sale of such li-  
quids by druggists.

## DIES AFTER LONG ILLNESS

Mrs. Study McIntyre, 31, Dies at  
Home of Her Parents

Mrs. Leathia McIntyre, wife of  
Clay (Study) McIntyre, died yester-  
day afternoon at the home of her  
parents, Mr. and Mrs. Edward Mil-  
ler, south of Rushville. Mrs. Mc-  
Intyre had been in poor health for  
almost a year, having failed to re-  
gain her strength following an at-  
tack of the influenza last spring,  
her death being caused from a com-  
plication of diseases.

Mrs. McIntyre was 31 years of  
age and is survived besides the  
husband, by two children, Helen  
and Clarabelle. Four brothers and  
five sisters also survive and her par-  
ents. The funeral services will be  
conducted Friday afternoon at two  
o'clock at the residence south of  
here, and burial will take place in  
East Hill cemetery.

## MAKING PROFIT IN CUT TIMBER

Understanding of Elementary Principles of Forestry Will Assist Farmer.

### CAN SELL IN CARLOAD LOTS

Wasteful Practice to Put High-Priced Logs to Ordinary Use on Farm—Much More Yellow Poplar and Cotton Wood Used for Pulp.

(Prepared by the United States Department of Agriculture.)

An understanding of the elementary principles of farm forestry will enable the farmer to market his timber far more profitably than it is done on the average farm. In the Southern states, and in many other sections of the country as well, high-grade logs of such trees as white oak, yellow poplar, red gum, ash, cherry, and black walnut can usually be sold in carload lots direct to manufacturing plants, even though these are located at some distance. Many local log-using plants buy in lots as small as a wagon or truck load. In the South clear logs of white oak and yellow poplar 16 inches and up in diameter are most profitably sold to sawmill plants especially equipped for quartering and veneering woods. High prices at loading points make it wasteful to put such logs to ordinary use at home.

**Paper Pulp Wood.**  
Large quantities of pine are cut and sold by southern farmers for paper pulp wood. Yellow poplar, cottonwood, red gum, tupelo and others in less amounts are used for the same purpose, according to forestry specialists. The wood must be peeled and is usually marketed in 4-foot lengths and 3 to 10 inches in diameter. Pulp wood is sold by the cord, and the prices usually range from about \$4 to \$6 for pine and from \$5 to \$9 for poplar, cottonwood, etc.

**Farm Timber Product.**  
Railroad ties have long been a standard farm timber product. As a rule, however, the price represents only fair wages for cutting, heaving and hauling, with little return for the timber itself. For example, a tie 7 inches by 8 inches by 8 1/2 feet long, if sold at 50 cents, when the items in the cost of manufacture are taken into account, would have a value equivalent to the same amount of lumber valued at \$16.50 a thousand board feet. This is a low figure for white oak. It is often a mistake to cut a young tree for one small tie when in a short time the tree could produce two ties.

### INSPECTION SERVICE GROWS

Certificates Issued by Inspectors State Condition of Interstate Shipments.

The inspection service for shipments of fruits and vegetables, started in 1917 by the bureau of markets, United States department of agriculture, has been extended to cover 150 designated

Federal Inspector Inspecting Carload of Badly Sprouted Potatoes.

markets. The certificates issued by inspectors upon request state the condition of interstate shipments as they arrive at market centers and are used as a basis for settling claims that may arise between shipper and consignee.

### WHITE LEGHORN BEST LAYER

Average Total Production of Eggs During Life Is About 500—Profitable Four Years.

The White Leghorn is the most important egg-producing breed at the present time. The average life of a White Leghorn is about six years. The average total production of eggs is above 500 and the maximum possible above 1,000, but they are seldom profitable to keep after the fourth year.

### REMOVE RAM DURING WINTER

Should Not Be Permitted to Run With Ewes Because He Gets "Bossy" and Eats Too Much.

The ram can be allowed to stay with the ewes until winter and then he should be taken away from them. If he stays with the ewes during the winter he will eat too much, get "bossy" and hunt them around, often causing abortions.

## RUSHVILLE IS A CENSUS DISTRICT

Government Will Begin March First of Getting Information on Industrial Facts

### 27 INDIANA DISTRICTS

Enumerators Will Work Out of Rushville and Places Offer a Good Salary

Rushville has been named as one of the 27 districts in Indiana for the collecting of information relating to the industrial census that will begin on March 1, according to an announcement received here.

Close on the heels of the censuses of population and agriculture comes the next big step in the work of the fourteenth decennial census—that of taking the census of manufacturers, mines and quarries and oil and gas wells.

Director Rogers of the census bureau announced today that March 1 would see the work of collecting Uncle Sam's industrial statistics well under way. The general schedules have already been mailed to all manufacturing establishments in the country, approximately 400,000. More than 1,200 special agents will be needed by the census bureau to carry on the vast work of enumerating each factory, mine, quarry, oil and gas well in the nation, and Director Rogers has issued an open invitation for all men interested to file applications for these jobs immediately with the census bureau, Washington.

In his statement Mr. Rogers says that the work of the special agents will be from two to four months duration and that an energetic agent can earn from \$125 to \$150 per month. When traveling a per diem subsistence allowance is also made.

The state of Indiana for the purposes of the industrial census work has been divided into twenty-seven districts, with Evansville, Terre Haute, Indianapolis and Ft. Wayne as headquarters for the chief special agent sent out from Washington by the census bureau.

According to present plans thirty-one special agents will be needed in the twenty-seven Indiana districts, with headquarters in the following cities: Princeton, Vincennes, Sullivan, Bloomington, Huntington, New Albany, Bedford, Columbus, North Vernon, Greensburg, Richmond, Rushville, Newcastle, Anderson, Muncie, Portland, Crawfordsville, Kokomo, Lafayette, Marion, Elkhart, South Bend, LaPorte.

## Well Improved Farm for Sale

The above notice will attract buyers from far and near. Thus proving THAT IMPROVEMENTS ARE NOT EXPENSE, BUT INVESTMENT.

They are making investment in the shape of added farm values, and increased crop and stock returns.

An investment in self satisfaction, comfort and convenience, in family contentment, in efficiency.

And furthermore, THE WELL IMPROVED FARM is a monument to the owner's business ability, to his thrift, his fine judgment, his citizenship.

BUILD A HOME—Keep the boys and girls on the farm.

BUILD A TENANT HOUSE—Solve the Labor Problem.

BUILD BARN—Protect the stock and grain.

BUILD IMPLEMENT SHEDS—Protect high priced tools.

PAINT ALL BUILDINGS—Save high priced lumber.

CHINESE WOMEN STUDY HEALTH

Three Doctors Return From America to Begin Active Health Campaign Among Women.

ALL AGENCIES COMBINE.  
American Y. W. C. A. Will Support Women's Part of Chinese Health Campaign as Part of World Service Program.

As a result of the Y. W. C. A. International Conference of Women Physicians, held during September and October, Chinese women are to have a far-reaching health program.

Dr. Ida Kahn, Dr. Li Bi-Cu and Dr. Dau, three of China's half hundred women physicians, who attended this

DR. IDA KAHN URGES CHINESE WOMEN TO WORK.

conference, are to take an active part in promoting this health program for women which will be the share of the Y. W. C. A. in the big health movement in China.

The funds for establishing these health centers, for demonstrations of how to care for babies, for health lectures for the women, for babies' dispensaries and for a general educational campaign, will be raised by the American Y. W. C. A. as part of its program of world service for women and girls in 1920.

Dr. Ida Kahn, in a recent appeal to modern Chinese women said, "Let our women of education in Peking and elsewhere gather themselves together to work for the schools, Red Cross and Y. W. C. A., and everything else which bespeaks the betterment of the country, instead of staying at home to play poker and 'sparrow,' and going out to attend endless dinners, tea parties and dances."

"Let us rally our forces and help the ship of state to move safely. One person cannot accomplish much, but one or two hundred millions of women can work wonders. Let us go back to a more Spartan-like simplicity of living and let us build up social service until every city in China is sanitary, every section of the town has its proper

FRIDAY — SPECIAL 6 REELS  
WHEN HIS SHELL-SHOCKED NERVES WENT TO PIECES

SCENE FROM THE UNIVERSAL SPECIAL ATTRACTION "THE TREMBLING HOUR" FEATURING KENNETH HARLAN AND HELEN EDDY

AN ALL STAR CAST  
Capt. Ralph Dunstan, a high type of young manhood, turned crook when his father was ruined by so-called "honest business methods." The knowledge of his father's misfortune embittered the young chap's heart and he went wrong. Then ignoring an opportunity to clear himself of suspicion by lying, he went to prison, but throughout his term he retained the good will and interest of the district attorney who convicted him.  
The district attorney obtained Dunstan's pardon and all the records that connected him with his previous crime. These were burned at an exclusive little dinner given for the young man by the friendly attorney after Dunstan had returned from France a hero, suffering from shell-shock. Something happened at the dinner when the soldier's jangled nerves were upset by the fall of a tray of dishes that made the story of "The Trembling Hour" possible.  
This photodrama is the current attraction at the Mystic Theatre and features Helen Eddy and Kenneth Harlan. It was directed at Universal City by George Seignann from a story by Kenneth S. Clarke. Henry Barrows, remembered as the "Andrew Hurdcastle" in Dorothy Phillips production "The Right to Happiness," plays a dual role in the picture, being seen as the district attorney and as his California millionaire twin-brother.

schools, and every child, whether boy or girl, is sent to such schools. True social service brings democracy in its train, and we who are citizens of a new republic can help to make it truly great by preaching and living democracy all the time. Why not learn to do our household duties, deeming it deplorable to be waited upon by maids and slave girls all the time?  
"The status of women in China, while leaving much to be desired, still is quite hopeful when we consider that she is just emerging into the sisterhood of the nations. Our men can depend upon us to bear the burdens of the day, for nowhere is there a more industrious, diligent and persevering womanhood than in China."  
Dr. Kahn is lecturing in this country on the needs of her fellow country women, in the interests of the Y. W. C. A. Educational Campaign which plans to acquaint people with all phases of Y. W. C. A. work in the United States, South America, China, Japan, India and Europe. This educational campaign will be followed by an active effort to raise the \$3,000,000 needed for service for women throughout the world.

MRS. PETER OLSON

Mrs. Peter Olson of Minnesota, the only woman who addressed the twin Jackson day banquets in Washington.

LIME BENEFITS MANY SOILS

Improves Texture and Makes Them More Retentive—Grains Are Made More Porous.

Lime benefits many soils by improving the texture. When applied to light, sandy soils it makes them more retentive. If applied to a clay soil it makes it flocculate. Very fine grains may be cemented together and made more porous.

HELPS APPEARANCE OF FARM

Paint Does Not Make Buildings, but Is Good Index to Efficiency of the Owner.

A coat of paint does not "make" farm buildings, no more than the clothes make the man, but neat appearance on the farm is generally an index to the efficiency of the owner.

BUYS BUSINESS ROOM

Harry Hillbold of the R. H. Jones company of this city, has purchased the business room in which their store is located in Greensburg.

RUSHVILLE PLEASSED BY QUICK RESULTS

Everyone is pleased with the quick results of simple witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. One man's eyes were so badly strained he could not read without pain. Two applications relieved him. A lady with weak, inflamed eyes was greatly helped by ONE bottle. We guarantee a small bottle of Lavoptik to help ANY CASE weak, strained or inflamed eyes. F. E. Wolcott, Druggist. Adv. 6

In a striking memorial to congress seven great national farm organizations including the Grange, the Farm Bureau Federation, the International Farm Congress, the Farmers' Congress, the Farmers' Union, the Cotton Growers' Association and the National Federation of Milk Producers, declare for a quick return of the railroads to their owners and oppose continuing the present government operation under the railroad administration. The memorial opposes profiteering and has in it the genuine ring of Americanism.

## Lincoln is Always New

It has become a common saying, more than a half century after the death of the Emancipator, that nothing new can be said of Abraham Lincoln. On the contrary he is always new and once each year at this time his memory blossoms afresh in the heart of every true American. His life, as we study it, presents new characteristics, opens up new avenues of thought as each anniversary of his birth rolls around. He had a powerful influence not so much because of his intellectual power but because of his moral power. He was politically strong because the people trusted him and believed in his Americanism.

It is ever a mark of true greatness to be modest. Lincoln's modesty was one of his pronounced characteristics. Never was he an egotist. Never did he trust to his own human powers to perform great tasks. He relied securely on a power beyond human effort—one which rules the destinies of men and nations.

In these critical times, not only for us in America but for all of the people of the world, nations and leaders can learn a valuable lesson from the life of Lincoln—one never to be forgotten. He believed that this nation—or any other nation for that matter—to be able to endure, must harmonize with the great forces of righteousness, sane liberty and constructive freedom—all working to strengthen the national structure. He stood on the solid rock of nationalism which is the only haven of safety in times of national peril.

## A Wise Decision

The directing heads of the American Federation of Labor, when they decided the other day to endorse candidates favorable to labor in the old parties, to forestall the organization of a third party, acted with discretion. They probably recalled that third parties are a failure in politics. American history teaches that political organizations of a single track nature, founded on a selfish purpose, can not succeed.

The labor leaders acted with intelligence when they reached the conclusion that they could best realize their aims by working through

## Sep and Sent

By BERT MOSES

Women who marry extra smart men are rarely happy.

The leading pool player in a town seldom leads in anything else.

It doesn't matter much what the laws are if honest men are elected to carry them out.

A government which allows its citizens to do their own thinking will endure forever.

Hez Heck says: "You can wager that a bow-legged woman never invented these short skirts."

There is no human misery or injustice that cannot be corrected if men will only get together and do the right thing.

the old parties because it is they which have expressed the thoughts and aims of the American people for more than a half century. They have embraced every new idea worthwhile which a democratic government such as ours has found necessary.

The passage of the prohibition amendment brings forcibly to attention the fact that third parties can not expect to win a majority even though they foster a doctrine commanding the support which temperance did. The prohibition party has a single objective and because their cause has finally been won, its followers will feel that they have won a victory, but in reality the party itself made little headway. Had it not been for the Anti-Saloon League carrying the battle into the old parties, the amendment likely would never have been passed.

Woman suffrage has been agitated for years, but the suffrage amendment was not passed by congress through the victory of a third party but because suffrage leaders had the good sense to work through the established parties where results could be obtained.

The populist, greenbacker and other parties of recent years have been short-lived. They have stirred up a slight rumour in the political horizon but have eventually died a natural death. This will be true of any other third parties.

The men who leave the old parties to enter them, usually do so to accomplish some one thing, unless they are aggrieved at treatment at the hands of their party, but the result is that they lose prestige for themselves and that if their object is ever attained, they have to go back to the old parties to attain it.

With the passing of the prohibition party, there will probably be several new "isms" asking for places on the tickets next fall. The voter should not be deceived by any false doctrines because it is easy to be led astray in this age of unrest. Many nostrums have been invented to cure the ills of the body politic, but we must remember that they all travel the road to oblivion unless they have some merit, in which case they will be taken up by either of the old parties and sponsored.

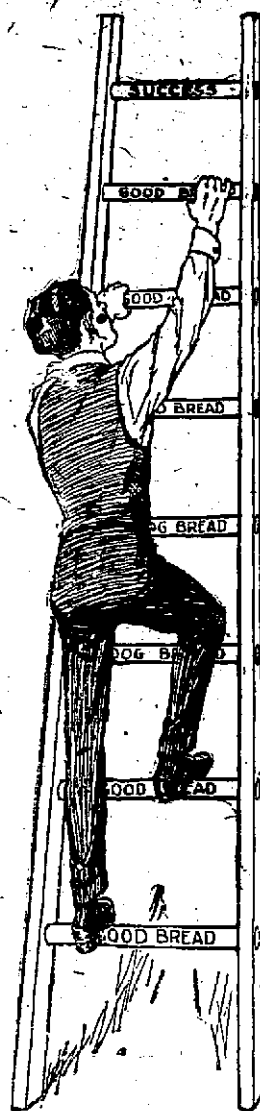

It begins to look like the end of the era of government extravagance is in sight. Evidence multiplies that the present congress intends to keep its word and practice economy instead of talking about it. The house foreign affairs committee has cut the appropriations in the diplomatic and consular bill twenty-eight percent below Secretary Lansing's estimate in addition to the heavy reductions from the estimates submitted to the house rivers and harbors committee and the house Indian committee, and the refusal of the house public buildings committee to report a public buildings bill this session.

In the midst of the present turmoil arising from the treaty of peace and the international covenant; in the confusion arising out of bolshevism, radical socialism and other "isms," it is well to recall that the great American doctrine of protection is as vital and necessary as ever. The United States is entering into a vast commercial warfare which will be more bitterly fought than ever before in history.

We fuss about the shortage of paper and then let pass unnoticed the fact that more than 7,300,000 words have been spoken and printed in the Congressional Record about the peace treaty and the league of nations.

The union wage scale has increased seventy-two percent, according to government statistics, which compares very favorably with the increase in the cost of living, and proves that the latter is no aristocrat after all.

## Opportunity--

You've heard people say it—  
"Opportunity only knocks once at every man's door. Now the world knows better."

Opportunity is all around us. Today—now—such opportunity as has never been since you lived, probably.

But it's for the "keep fit" man, the climber; not for the un-fit, the undernourished, the man who slumps back with his job nine-tenths done.

Bread is an important part of keeping fit. Many people could double their vitality by eating more—much more—Bread.

## LANG'S BREAD

is the loaf that keeps all of us up to the top-notch.

Made with more yeast. That means more vitamin, the substance of yeast—more health, more energy.

Go to it. Mount a rung to-day—the rung of right eating.

Ask the following grocers for Lang's Bread

## Our Daily Laugh

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them.

"Tad" of the "Journal" never told a better one than the yarn relating back to one of Tom Sharkey's early appearances on the Pacific Coast. Tom took a squint at the pavilion and was annoyed to see that there were more dead-heads in the arena than locusts in Egypt during a fair crop season. Tom wandering outside and saw a hundred more dead-heads beating past the gate keeper. Said Tom, in combative manner:

"Who is these guys?" The gatekeeper nervously said:

"These here guys?"

"Soytinkly," said Tom. "These guys as who is hornin' in free gray-fus for nix?"

"Oh," said the gatekeeper blandly. "them is the fighter's seconds."

"The fighters seconds?" gasped the gentle Sharkey. "Say, who's fightin'—the North and the South?"

ADOPTS HYDROPLANE  
TO HUNT FOR WHALES

Capt. Loop's is Scheme Development of War When Airplanes Were Used to Hunt For Submarines

WILL LOCATE THE SCHOOLS

(By United Press.)

Los Angeles, Cal., Feb. 12.—Flying fish have long been familiar but now the flying fisherman is introduced. Captain John D. Loop, whale-hunter, has adopted the hydroplane in place of the time-honored dory.

From it he hunts for sardines and whales.

The hydroplane's adaptation to whaling is a development of the war when airplanes were used to search the seas for submarines. From the air the hunter can see beneath the surface of the water.

The chief part played by the air-men in fishing is to locate the schools and then the whalers or the fishing boats are sent out to finish the job. An attack on the whale from the sky, however, by means of bombs or machine guns, is not an impossible development, flyers say.

Loop, who long has hunted whales off the Lower California coast, already has had big success in locating schools of sardines from the air.

Amusements

"The Jungle Trail" at Princess  
The discovery of a city hidden in an African jungle—a city inhabited by a strange race of idol-worshipping people—forms part of the theme of a William Fox photoplay, "The Jungle Trail," in which William Farnum is featured. The picture will be the feature of the bill at the Princess Theatre tonight.

The hero of this story goes to Africa to shoot big game and is followed there by native agents of his rival in love. These agents undertake to lose him in the jungle and bribe the natives, from whom he escapes after a battle, finding his way thence, after many vicissitudes, to the strange city. Here he is seized as an infidel and sentenced to be burned at the stake, but pulls up the posts to which he is bound and thereafter, until he overturns a great statue of an idol, is worshipped as a god of strength. The picture is said to be strong in romantic interest and to include several characteristic William Farnum hand-to-hand fights.

The attraction at this theater on Friday and Saturday promises a big attendance, when a double program will be offered. Charles Ray, will be seen in "Red Hot Dollars" and Charles Chaplin in his latest picture, "A Day's Pleasure." Both of these pictures will be shown on Friday and Saturday, matinee and night.

Program at the Mystic

The program at the Mystic theater tonight will be the 6th episode of the "Great Radium Mystery," the topic for this part tonight being, "The Tunnel of Doom." A two reel western, "Two Bit Man" and an O. K. comedy, "Seeing Things," will also be on the program tonight.

Kenneth Harlan, the Universal who left the western film capital to carry a gun in France, has completed his first photodrama since his honorable discharge from service.

He is to be seen Friday at the Mystic Theatre in "The Trembling Hour," his latest Universal success in support of Helen Eddy.

"The Trembling Hour" concerns a man who returned from the front suffering from shell-shock. His nerves are badly unstrung and the slightest noise upsets him to the point of violence.

How he was accused of a murder and how he proved his innocence forms the theme of the photodrama.

It is a coincidence that George Seigmann, who directed "The Trembling Hour," was also in the service and met Harlan at an officers' mess in France.

NEWS OF COLORED FOLKS

The Young Women's Congress of the Second Baptist church and friends are giving a benefit Friday Feb. 13 for Mrs. Carrie Fred, 631 East Seventh street, who has been in poor health for the past two years. The public is invited.

WANT ADS BRING RESULTS

PREMIERS SHOW MAIN  
DIVERSION IN OPINION

The Differences Have Caused Considerable Uneasiness in Official Circles Abroad

NITTI SUPPORTS GEORGE

Paris, Feb. 12.—Growing indications of wide spread diversion in opinion between Premiers Millerand, Lloyd George and Nitti, have caused considerable uneasiness in official circles here today.

Observers all point out that parliamentary and public utterances of each of the premiers recently showed marked differences of opinion as to the allied attitude to the Germans and Russians.

The interview with German Minister of Finance Erzberger in which he declared at least one of the allies seemed inclined to support Germany in her attitude of refusing to surrender war guilty, apparently was confirmed by Nitti's parliamentary declaration that it was now necessary to forget the enemies monstrous crime and work for collaboration of the victors and vanquished, observers believed.

Other utterances by the Italian premier made it certain that he will support Lloyd George's changed attitude to the surrender of war guilty Germans in the Big Three meeting.

Malcolm Kerlin, assistant postmaster of the Washington post office, has resigned to become a member of the United States bureau of efficiency, as an examiner. His first duty will be in connection with the reclassification of postal employees throughout the country.

DID YOU EVER  
USE SLOAN'S?

Keep it handy to promote prompt relief from rheumatic pains and aches

WHEN you know what Sloan's Liniment will do, as thousands of men and women the world over know, you, too, will keep it handy. You will use it for those "twinges of rheumatism," for relieving that lame back, muscle stiffness and soreness, aches, all sorts of external pains, and exposure aftermaths.

Only takes a little, applied without rubbing. Soon penetrates, scattering the congestion, bringing merciful relief to the throbbing, jumping part.

BARGAINS ARE ALWAYS ADVERTISED

The Immaculata Sodality of the St. Mary's Catholic church will give a euchre card party and box supper in the K. of C. hall tonight. Everyone is cordially invited to attend.

The B. Y. C. D. class of the First Baptist church will meet Friday night at the home of Mr. and Mrs. Ralph Pearsey, corner of Fifth and Jackson street. All members are urged to be present.

Mrs. Ralph Payne was hostess for the members of the Band of Workers of the First Presbyterian church yesterday afternoon at her home in North Harrison street. Twenty-four members of the society were present for the regular meeting and business session. At the close of the program dainty refreshments were served. The assisting hostesses were Mrs. William Wallace and Mrs. Louis Neutzenhelzer.

The Ladies Aid Society of the Pleasant Ridge M. E. church were delightfully entertained yesterday at the home of Mrs. J. R. Deeringer west of the city. At noon a delicious pitch-in dinner was served to the twenty-one guests present. In the afternoon the regular business meeting and program was held followed by a guessing contest which furnished much amusement. A social hour was enjoyed at the close of the meeting.

The W. R. C. held a very interesting Lincoln program at the G. A. R. hall in the court house yesterday afternoon. Mrs. Bainbridge, Mrs. Mattox, Mrs. Young and Mrs. Reid-enbaugh gave a progressive reading on the life of Lincoln from his birth to the presidential chair. Mrs. Mary Wilson also had an interesting reading on Lincoln. Mrs. Hoadley gave a short talk on the life of the great American. During the business session \$8 of the \$9 promised at the last meeting for the Armenian orphans was paid into the treasury at this meeting. The corps voted to give the Woman's council the sheets, pillow cases and gowns, which were in charge of the corps, as quite a few belong to the council. All corps members having old clothes please take them to the president, Mrs. Sarah Giffin, and she will see that the visiting nurse gets them as she is in need of them. Also any clothing for children, though it needs mending, will be accepted by the corps.

## MANY CASES POSTPONED

Court Has Been Quiet so Far During February Term

The February term of court so far has been very quiet and the jury has not been needed to hear any case. Many of the cases set for trial this week have been called off and placed on the docket later on in the term. With Prosecutor Stevens, ill with influenza, several of the state cases have been postponed. Five divorce cases were ready for trial this week, in which the prosecutor was to appear for the defendant in each case, as these cases were all delayed until a later date. The case of the State against Ora Cline, which was to have been started Monday was delayed on account of M. Stevens' sickness, and will be reset for trial as soon as he recovers.

## DEFEATS ANDERSON 30-24

Franklin High School Looms Ahead as State Champions

Franklin, Ind., Feb. 12—The fastest and most exciting basketball game ever played here took place last night when the Franklin high school team won their second game of the season from the Anderson high school, the score being 30 to 24. This puts the Franklin team in the limelight as the leading team in the state. Franklin's next game will be with the Rushville high school team at Rushville on February 20, when the locals expect to pile up an overwhelmingly big score.

The Franklin gymnasium was overcrowded last night and 2,000 people were turned away. The game was close and near the end of the game the score was tied 22 to 22, but the locals forged ahead and won the game.

## URGES SOWING OF MORE CLOVER SEED

Continued from Page One  
used a little more extensively than when clover seed is cheaper. A pound of alsike clover has 720,000 seeds as compared with \$250,000 in red clover. For this reason a smaller quantity of alsike may be used. A mixture of red clover and alsike is desirable because the alsike is less expensive per acre, and is more sure of a stand on soils that are wet or slightly acid.

Many farmers are sowing half the quantity of clover seed at two different times. In this way if one seeding fails the other may catch. One pound of red clover seed per acre furnishes five seeds for each square foot. It is evident therefore that if either one of two seedings should meet favorable conditions, there would be an excellent stand.

## DAYLIGHT SAVING FAVORED BY MANY

Continued from Page One  
5:30 p. m., people living outside the city would have to keep this in mind. As trains would be operated according to the time now used, clocks could not conveniently be turned back. The result would be that a portion of the day would be governed by one time and a part by another time. It is explained that confusion might easily result. On the other hand, those in favor of the local change say that within a few days the public would become accustomed to it and the objections which are now presented would not prove serious.

## SUFFERS A BROKEN ARM

Miss Belle Gregg, principal of the Jackson school, sustained a broken left arm this morning when she slipped on the icy pavement while on her way to school. The large bone was broken above the wrist and was very painful. She was removed to her home, 618 North Jackson street, and will probably be able to resume her school work by next Monday.

## TO ASSIST IN PROSECUTION

Tremain and Turner, a law firm in Greensburg, was here yesterday in the interest of the Demaree case which will be tried here at an early date. The Greensburg firm will assist in the prosecution of Boaz Demaree of Greensburg, held in jail here on burglary charges.

Captain and Mrs. J. A. Tench of the Salvation Army have moved from 432 West First street to 440 West First.

## SUFFRAGE HEADS HOLD CONVENTION

Women Meet Today in Chicago and Will Seek a New World to Conquer

### SEVERAL PURPOSES IN VIEW

Committee Appointed Which Will Devote Their Attention to Many Things Outlined

(By United Press.)  
Chicago, Feb. 12.—Spurred by the thrill of victory suffrage leaders of America today sought a new world to conquer.

Preliminary to the victory convention of the national American Woman Suffrage Association which will celebrate the accomplishment of its main purpose—ratification of the federal suffrage amendment to the constitution—committees of the organization met today to outline future campaigns.

The committee planned the organization which will grow out of the suffrage association, the league of women voters, which will give its attention to the following:

Spread of the doctrine of Americanism.

Obtaining greater facilities for education of illiterate aliens and minors.

Protecting women engaged in industrial pursuit.

Safeguarding the welfare of children.

Furthering laws prohibiting speculation in food stuffs and other legislation looking toward stabilization of food prices.

Obtaining and enforcing social hygiene legislation.

Unification of laws concerning women, including divorce, property rights, citizenship and mother's pensions.

## WOMEN EXCEED MEN IN JAPANESE FACTORIES

850,000 Japanese Women Work at Average Daily Wage of Ten to Twenty Cents for a Twelve Hour Day.

There are more women in industry in Japan than there are men, according to a statement recently made by the War Work Council of the Young Women's Christian Association.

The world war has brought 850,000 women and girls into the daily grind of industry according to this statement: 30,000 of them little girls under fifteen years of age who work twelve hours at a wage of ten to twenty cents a day, that the world may have silk dresses and munitions.

In Tokyo alone, a city of two and one-half million people, there are 103,000 women employed in sixty-two industries and businesses varying from work as telephone operators, clerks, stenographers and bookkeepers to work in silk and other sorts of factories and domestic work.

Each year thousands of these women go back to their homes in the country, broken in health and victims of tuberculosis because of the poor conditions under which they work and live. They are housed in dormitories in the factory compound. These dormitories are frequently unsanitary. The girls work long hours, have no recreation and on finishing their long day go immediately to bed, oftentimes a bed which a girl who works at night has been sleeping in all day.

As part of its world service for women, the Young Women's Christian Association plans to build dormitories in manufacturing towns where girls may live cheaply under healthful physical and social conditions, to send out secretaries who can introduce recreation into the factory compound and direct games and social life.

This is done with the co-operation of the factories' managers and proprietors. One of the most influential of these is Mrs. Suzuki, the most prominent woman manufacturer in Japan, who is owner and manager of a firm which exported \$11,000,000 worth of bean oil to America last year.

Recently Mrs. Suzuki decided to employ one thousand women in her offices. She could not find enough well trained ones so she established a permanent school where Japanese girls may be trained to enter the business world. The greatest danger ahead of Japan, she says, is in its growing materialism, and Japan's greatest need, the development of her women.

## RELEASED ON \$1,000 BOND

Elmer L. Keeler of Indianapolis was brought here late this afternoon by Sheriff Jones on a recent grand jury indictment, charged with blackmail, and when arraigned before Judge Sparks was released on a \$1,000 bond which he furnished.

## LOUSY HOGS CONSUME MUCH VALUABLE FEED

Pork-Producing Abilities of Animals Is Lessened.

Experiments Recently Conducted by Bureau of Animal Industry Prove That Blood-Sucking Parasites Are Expensive.

(Prepared by the United States Department of Agriculture.)

Lice on hogs are extremely expensive. The fact was proved in experiments recently concluded by the bureau of animal industry. It was shown that lousy hogs not only consume more food and make less meat but that they are uneasy or restless, a condition that doubtless lessens the pork-producing abilities of the animals. When not eating, the lice-ridden swine spent most of their time rubbing themselves or running around.

Three experiments, each extending three months or more and with from 20 to 30 hogs as subjects, were conducted. In one experiment it cost exactly \$1 a hundred pounds of pork more to feed the hogs with lice than it did to feed the clean animals. In another, it cost \$1.50 more, and in the third, \$2.94 more. The specialists who conducted the experiments reached the conclusion that the main reason why hogs with lice consume more protein feed is due to the fact that the lice suck the blood from the animals, and the latter must use more feed to replace their losses.

But the lice-ridden hogs cannot make up for the blood sucked by their parasites. For instance, at the beginning of one experiment, 15 hogs with lice weighed a total of 1,167 pounds, and 15 hogs without lice weighed 1,025 pounds. At the end of the experiment the lousy hogs weighed 2,372 pounds, and the clean hogs weighed 3,150 pounds, although the total feed consumed by the clean hogs weighed only 203 pounds more than that eaten by the animals with lice.

## Spring Dress Materials

Our exceptionally brilliant showing of La Porte Dress Goods for Spring is now ready for your inspection. Despite discouraging obstacles in production, we are able to offer you a line more complete and comprehensive than ever.

These fabrics are the most beautiful we have ever offered, combining an originality of weave and design with that fineness of texture which appeals to the woman of exacting taste.

La Porte

## 500 LEADING MEN HOLD CONFERENCE

Discuss Means of Combating Bolshevism and the Problems of the Workers

GEN. WOOD GUEST OF HONOR

As This is Lincoln's Birthday Slogan of Conference is to "Lincolnize America"

(By United Press.)

Cleveland, Ohio, Feb. 12.—Ways and means of combating bolshevism, the promotion of more cordial relations between labor and capital and the problems of the workers, were subjects to be discussed here today by a conference of 500 leading educators, ministers, senators, congressmen and others in public life, including candidates for office.

General Leonard Wood, candidate for the Republican nomination for president was to be the guest of honor at a banquet this evening.

Dr. John Wesley Hill, chancellor of the Lincoln Memorial University, said invitations had been extended to men from all walks of life and from all parts of the country. As this is Lincoln's birthday, Dr. Wesley said, the slogan of the conference is to "Lincolnize America."

Aside from congressmen, senators, governors and others high in the political life of the country, the invitation list held the following names: Marcus M. Marks, specialist in industrial science, New York; Professor W. B. Guthrie, professor of economics, College of the City of New York; W. C. Mitz, recently first assistant attorney general of the United States; Warren S. Stone, president of the Brotherhood of Locomotive Engineers; Dr. Donde Palen, editor of the Catholic Encyclopedia; F. A. Siberling, president of the Goodyear Tire & Rubber company and M. W. Harrison, director of the New York Bankers' Association.

## THREE HUNDRED DIE IN BALTIC BLIZZARD

Red Cross Ambulance Men Patroling This District Reported Many Babies Frozen to Death

WILL COMPLETE REPORTS

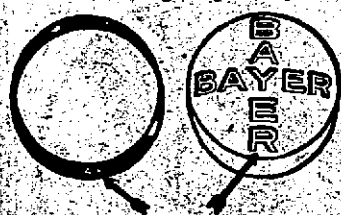

Reval, Esthonia, Jan. 19.—(By Mail)—The blizzard that swept over the countries on New Year's day, covering the whole country with a heavy coat of drifting snow, left in its wake more than 300 persons in the forest district between Reval and Narva who were frozen to death according to fragmentary reports that have reached the American Red Cross here.

Red Cross ambulance men who patrolling the main highways of this district reported many babies froze to death at their mother's breasts, and it is believed that the death toll will approach a thousand when complete reports are received.

The chief sufferers from the blizzard have been the Russian refugees who were scattered throughout Northern Esthonia by the collapse of the Yudenich army in November. The children, particularly weakened by insufficient and improper nourishment, have proved easy victims to the Arctic temperature prevailing during the first week of the new year.

## NAME "BAYER" ON GENUINE ASPIRIN

Get relief without fear as told in "Bayer package"

The "Bayer Cross" on Aspirin tablets has the same meaning as 14 Karat on gold. Both mean Genuine! ## PRICE OF COFFEE EXPECTED TO SOAR

Damaged Crop, Strenuous Advertising and Prohibition Create a Big Demand For It

MONTHLY IMPORT IS LARGE

Washington, Feb. 11.—Visions of further increased prices in coffee following the statement that coffee imports in 1919 doubled in value as compared with 1918, though there was but a slight increase in quantity.

A blighted coffee crop in Brazil, prohibition and a strenuous coffee advertising campaign are blamed for the jump, which will have to be met by every American household.

According to Department of Commerce figures 1,235,532,102 pounds of coffee were imported by the United States at a cost of \$239,400,798. This is more than double what was paid for the 1,215,288,762 pounds imported in 1917. In 1918 996,516,598 pounds were imported at a cost of \$192,529,306.

Prices are still rising according to latest monthly statistics. In November 1918 108 million pounds were imported at a cost of \$25,321,726. October figures showed coffee imported amounted to 102 million pounds at a cost of \$24,456,354.

## PUBLIC SALE

I, the undersigned, will offer at public auction on the Clarissa Nordloh farm, two miles west and two miles north of Arlington, five miles south and west of Carthage, and two miles south of Riverside church

WEDNESDAY, FEBRUARY 18, 1920

## NOTICES HER NEW STRENGTH AT HOUSEWORK

### This Cincinnati Woman Stronger Since She Took Vola Tonic

"I'm so much stronger since I have been taking Vola-Tonic that I can easily notice the difference at my housework," said Mrs. Emma Wambanz, Britton avenue, Madisonville, Cincinnati, O.

"I've only been taking Vola-Tonic about three weeks, too," Mrs. Wambanz added.

"Before I took Vola-Tonic my stomach was out of order and I was weakened and run down generally.

"My appetite and digestion were so bad that I missed a great many meals altogether and when I did sit down to a meal I ate only a very little. My digestion was so poor that often I think my food layed in my stomach from one meal to another without digesting. Of course, this made me feel mighty bad.

"Vola-Tonic has put my stomach in excellent condition. My digestion is good now and my appetite has come back fine.

"Vola-Tonic also made me a great deal stronger. I can notice it when doing my housework because my duties are much easier.

"I gladly recommend Vola-Tonic to everybody."

Vola-Tonic, "Builder of Strength," incorporates the entire system. Vola-Tonic brings a good appetite and then helps the stomach take strengthening nutrition from food to nourish and build up the body all over. Vola-Tonic also soothes the nerves and permits sound, energy-restoring sleep every night. As a result, full normal strength and health soon return to the weakened, run-down man or woman.

Vola-Tonic, "Builder of Strength," is being specially introduced in Rushville at Frank E. Wolcott's.

(Adv.)
